Community TRAVEL PHOTOGRAPHY Seminars

FREE Travel Photography Seminars have been held during September for the **Moreton Bay Regional Council** at **Burpengary, Arana Hills and Woodford** with Further Travel Seminars to be held during October and November at **North Lakes** (Tuesday 28th OCT) and **Redcliffe** (Tuesday 11th NOV) **Libraries**.

Brisbane City Council will host a Travel Seminar at **Everton Park Library** on Saturday 18th October.

The session includes an overview of travel photography, preferred equipment, on location photo-techniques and making your trip pay for itself with travel writing and publishing.

For groups requiring an alternative to the Travel Writing session, there is a session discussion sorting, naming/ numbering and filing of your images.

Brisbane Seminars in the Library

You will receive a FREE copy of the presentation notes (without images to keep the email small enough for transmission) for later reference and recall. I find from experience that this is beneficial in allowing you to concentrate on the discussion and take in more of the conversation .

Do you feel you need more understanding about the basics of photography? Do not be deterred from attending the the Travel Seminars - my CD on Basic Photography (used as reference at my monthly Seminars) will be available for purchase on the day to give you this better understanding.

You are always welcome at one of our **Monthly Seminars** at **Everton Park** or **Arana Hills** libraries.

Images from Contributors and/or recent Community Group Photo Workshop.

Many photography images have been emailed to me since my last Newsletter and show that some photographers are enjoying their travels and getting out and about.

Em D sent in several images taken at the recent Table Top Lighting workshop held at Everton Park Library. Kids toys are always a good subject with such brilliant colours. The real advantage when shooting with indoor 'studio' lighting is that YOU have complete management of the lighting.

Restoration of Family & Historical Photographs

Please contact me for further details.

And now something completely different with a moonlight image.
Well taken Margaret.

Many thanks Margaret & Bruce and Em for your interest and contribution to our Newsletter.

Your contributions and sharing of your photography experiences through our Newsletter is very beneficial to all.

Remember, photography is all about capturing light and its reflections.

Everyone can be involved in our community workshops and image sharing – irrespective of your global location.

Please see details on my [Workshop webpage](#), or contact me with your questions.

Enjoy your photography, Norm.
